To the Bishop or Branch President

☐ Review the Church Handbook of Instructions, Book 1; Stake Presidencies and Bishoprics, and the First Presidency letters of 12 December 2000 and 11 December 2002 for information on qualifications, terms of service, requirements for special clearance, and other instructions on calling missionaries.

☐ The missionary recommendation packet for young missionaries should be submitted to the Missionary Department not more than 90 days before the candidate’s availability date. Couples’ packets may be submitted up to five months in advance. The date given in the “Date available to serve” field should not be earlier than the birthday when the missionary reaches the minimum age for service. Normally about two to four months are allowed between the issuing of the call and the beginning of the mission.

☐ If the candidate has been living away from home, the home bishop or branch president and the away-from-home bishop or branch president must confer regarding worthiness and the procedures for submitting the recommendation forms (see the Church Handbook of Instructions, Book 1).

☐ Conduct a thorough, searching interview with the candidate to determine worthiness, qualifications, and the individual’s physical and emotional capability to serve. Confirm that the candidate has an understanding and testimony of the Savior and His Atonement, the Restoration and Joseph Smith’s role in it, the Book of Mormon (having read it), and the singular privilege of serving the Savior as a missionary.

☐ Give the candidate the missionary recommendation packet.

☐ Review these forms after the candidate completes them. Ensure that any serious concerns are resolved, including completion of recommended tests or treatment, before the forms are submitted. Give special attention to emotional, behavioral, and learning problems. If the candidate is on medication for a chronic condition, encourage him or her to continue the medication throughout the mission.

☐ Conduct a final interview with the candidate before submitting the forms. Make sure that all requested information has been provided, and fill in the Unit Information for Missionary Candidate form including the candidate’s record number. Discuss with the candidate important information requested on the forms, such as visa or citizenship documentation and information about special medical problems, diets, or medications.

☐ Ensure that after the contribution from the missionary and family, the ward or branch missionary fund can meet the financial obligation for the missionary.

☐ For countries where supplemental financial support from the General Missionary Fund is authorized: If the candidate cannot be supported fully from personal, family, ward or branch, or stake or district funds, complete a Request for Supplemental Financial Assistance for Full-Time Missionary form (31964), and send it to the area office with the missionary recommendation packet. Do not request assistance from the General Missionary Fund until the missionary, the family, and the ward or branch and stake or district have committed themselves to provide all the financial support they can.

☐ Ensure that family members and others contributing to the Church’s missionary funds are aware that contributions belong to the Church for use in its discretion to further missionary work and are not refundable even if the missionary is unable to complete the full term of his or her mission.

☐ On the Priesthood Leaders’ Comments and Suggestions form, provide pertinent information on the candidate’s qualifications and abilities. Add comments on the candidate’s experience, leadership capability, potential, interests, talents, or limitations that should be considered in determining the mission assignment.

☐ The picture that accompanies the recommendation form should be current and show the candidate dressed and groomed according to missionary standards.

☐ Sign the Priesthood Leaders’ Comments and Suggestions form and send all required forms to the stake president. When you sign this form, you are stating that in your opinion this individual is worthy to serve a mission. You are also confirming that you have reviewed the medical information and conducted a thorough personal interview, which has convinced you that this person is physically and emotionally able to serve a mission.

☐ Do not recommend members who are in debt and have not made definite arrangements to meet their financial obligations.

To the Stake or Mission President

☐ Review the Church Handbook of Instructions, Book 1; Stake Presidencies and Bishoprics, and the First Presidency letters of 12 December 2000 and 11 December 2002 for information on qualifications, terms of service, requirements for special clearance, and other instructions on calling missionaries.

☐ Conduct a thorough, searching interview. Confirm that the candidate has an understanding and testimony of the Savior and His Atonement, the Restoration and Joseph Smith’s role in it, the Book of Mormon (having read it), and the singular privilege of serving the Savior as a missionary.

☐ Add your comments on the Priesthood Leaders’ Comments and Suggestions form.

☐ Make sure that all concerns have been resolved or adequately explained either on the Priesthood Leaders’ Comments and Suggestions form or, if confidential, in a separate letter.

☐ Review all forms for accuracy and completeness.

☐ Sign the Priesthood Leaders’ Comments and Suggestions form, and send all forms to the Missionary Department (at the address above). When you sign this form, you are stating that in your opinion this individual is worthy to serve a mission. You are also confirming that you have reviewed the medical information and conducted a thorough personal interview, which has convinced you that this person is physically and emotionally able to serve a mission.

Instructions for Parents of Young Missionaries

1. Complete all information on the Missionary Recommendation form. Type if possible, or print neatly in black ink. Write dates in day, month, year format (15 Dec 2001).

2. Complete the Education and Service of Missionary Candidate form. Fill out the Personal Health History of Missionary Candidate form completely, honestly, and accurately before your medical examination.

4. If you have had any major illness, major operation, major injury, prolonged treatment, or hospitalization, obtain a statement from the professional who treated you, if possible, to explain the nature of the problem and its current status. It is important that you provide complete information about your physical condition. For example, it is not enough to say that you had a knee injury; you must also state which knee was injured and explain whether there are any persistent problems with the knee.

5. If you have any preexisting medical conditions, be prepared to defend your son or daughter from the mission field.

6. Give the following forms to the physician along with a stamped envelope addressed to your bishop or branch president:
   - The completed Personal Health History of Missionary Candidate form.
   - The Instructions for Physicians Evaluating Missionary Candidates.
   - The Physician's Health Evaluation of Missionary Candidate form.

7. Begin the hepatitis A and B immunizations and boosters for diphtheria, tetanus, measles, and mumps immediately. You will receive additional immunization information with your mission call.

8. Obtain a thorough dental examination. Begin early. Sign the “Authorization to Release Information” section on the Dental Evaluation for Missionary Candidate form, and give the form to the dentist along with a stamped envelope addressed to your bishop or branch president. Have the dentist fill out the form and mail it to your bishop or branch president. Where mail is unreliable, personally retrieve the forms.

9. Have all dental work, including orthodontic work, completed before submitting the missionary recommendation packet to your bishop or branch president.

10. You are expected to be physically and emotionally capable of working several hours a day. For young missionaries, this means walking several miles a day six days a week. If there are reasons why this might not be possible, please discuss them with your bishop or branch president.

11. Before entering the MTC, correct any problems such as plantar warts, flat feet, chronic headaches, inguinal hernias, and so on. Stabilize and understand the treatment for chronic problems such as asthma, diabetes, seizures, emotional disorders, irritable bowel, endometriosis, and so on.

12. If you are taking prescribed medication for any chronic problem, medical or emotional, do not stop taking it unless your physician advises you to do so. Please list on the Personal Health History of Missionary Candidate form all medications you are currently taking.

13. Complete all appropriate sections of the Personal Insurance Information of Missionary Candidate form.

5. The Physician's Health Evaluation of Missionary Candidate form must be signed by a medical doctor (MD) or doctor of osteopathy (DO). If the examination is done by a physician assistant (PA) or nurse practitioner (NP), the supervising physician must verify the findings and review and countersign the form. An examination by any other practitioner is not acceptable.

6. Give the following forms to the physician along with a stamped envelope addressed to your bishop or branch president:

7. If you have private insurance coverage for your son or daughter, do not discontinue it. Please note it on the Personal Health History of Missionary Candidate form with pertinent data.

8. During the mission, a missionary's family must bear the costs of caring for preexisting medical conditions. A preexisting condition is any chronic, congenital, or medical condition with signs or symptoms, a diagnosis, or treatment within two years before the missionary enters the mission field, regardless of whether the symptoms are present when the missionary enters the field.

All donations to the Church’s missionary funds become the property of the Church to be used at the Church’ sole discretion in its missionary programs. Contributions are not refundable, including any advance contributions, if the missionary is unable to complete the full term of the mission.

I declare that the statements made in the Personal Health History of Missionary Candidate are a complete and honest report of my health history. No personal health information has been withheld or misrepresented.

Missionaries for The Church of Jesus Christ of Latter-day Saints
serve in various environments and cultures throughout the world. They are normally expected to engage in missionary activities many hours per day, including walking many miles a day, six days a week. The rigors of a mission usually exacerbate any prior difficulties. Please use the following guidelines in examining the missionary candidate:

1. The Physician’s Health Evaluation of Missionary Candidate form must be signed by a medical doctor (MD) or doctor of osteopathy (DO). If the examination is done by a physician assistant (PA) or nurse practitioner (NP), the supervising physician must verify the findings and review and countersign the form. An examination by any other practitioner is not acceptable.

2. Please perform a thorough physical examination to ensure that missionaries receive assignments in which they can succeed. It is unfortunate when a missionary must return home early because of problems that could have been avoided or stabilized before the mission.

3. Correct any problems such as plantar warts, flat feet, chronic headaches, or inguinal hernias before the missionary candidate leaves for his or her mission. Explain to the candidate any problems that do not need correcting, such as a deviated nasal septum, varicocele, pilonidal disease, and so on, in case a physician in his or her mission insists that such a condition must be surgically corrected.

4. Stabilize chronic problems such as asthma, diabetes, seizures, emotional disorders, irritable bowel, endometriosis, and so on. Carefully instruct the candidate on the treatment for these problems, and explain personal care under diverse circumstances. Also explain the importance of continuing to take any prescribed medications.

5. Do not sign the Physician’s Health Evaluation of Missionary Candidate form without reviewing the Personal Health History of Missionary Candidate form with the candidate. Please comment on each abnormality listed by the candidate.

6. When a major illness, operation, injury, hospitalization, or prolonged treatment is mentioned, please obtain a summary report of the incident from the professional who treated the case. This report should accompany the candidate’s application.

7. Obtain necessary consultations to clarify the candidate’s ability to function in the mission field as well as his or her current physical and emotional status where advisable.

8. Complete all specified laboratory tests. Everyone, including those who have had BCG vaccine or a chest X ray, should have a PPD skin test. Only those already known to be positive are exempted.

9. Please mark the appropriate box indicating the candidate’s overall ability to function in the mission field on the “Missionary Fitness Report: Overall Assessment of Functional Ability.”
To the physician: Please type, print, or write legibly in black ink when completing this form. Attach additional information if necessary. When you have completed the form, mail it and a copy of the Personal Health History of Missionary Candidate form directly to the candidate's bishop or branch president, using the envelope provided by the candidate. Your thorough evaluation and completion of all requested forms, information, and recommendations will be greatly appreciated. Where mail is unreliable, give the forms in a sealed envelope to the missionary candidate.

Dental Evaluation for Missionary Candidate

MISSIONARY DEPARTMENT
50 E NORTH TEMPLE ST RM 345 W
SALT LAKE CITY UT 84150-5400

To the priesthood leaders:

1. All dental treatment, including active orthodontic treatment, must be completed before a prospective missionary begins missionary service.

2. Active orthodontic treatment is defined as any one of the following:
   a. Bonded or banded braces on the teeth.
   b. Invisalign treatment trays.
   c. Removable appliances requiring periodic adjustments.

3. Wearing a final retainer appliance after active orthodontic treatment is completed is not considered active treatment.

To the missionary candidate:

1. Have your dental examination early (6 months) to allow plenty of time to complete all dental treatment, including active orthodontic treatment. Your application will not be processed until all necessary treatment has been completed or scheduled.

2. Give your dentist a stamped envelope addressed to your bishop or branch president.

3. Your dentist will retain this evaluation form, and will not send it to your bishop or branch president until all needed dental treatment, including active orthodontic treatment, has been completed.

To the examining dentist:

1. As you evaluate this missionary candidate's dental condition, please be aware that he/she might be assigned to serve for two years in an area of the world with limited or inadequate professional dental care. Third molar complications are the most common medical-dental problem in the mission field today.

2. Please help this candidate understand the role of plaque in dental disease and the importance of daily personal oral hygiene to maintain dental health. Please correct overhangs and rough interproximals that would make flossing difficult or impossible.

3. The missionary candidate will give you a stamped envelope addressed to his/her bishop or branch president. When you are satisfied that all treatment has been completed or scheduled, mail this form to the missionary's bishop or branch president. Where mail is unreliable, give the form in a sealed envelope to the missionary candidate.

My protected health information may also be disclosed to one or more clerks who assist my local unit priesthood leaders (such as the ward and stake clerks), and to others I identified specifically by name (such as my parents), except as I have noted to restrict contact with one or more persons. My protected health information may be disclosed to assist in treatment of an illness or injury and to assist in determining pre-mission conditions that may impact payment of treatment and the recovery of costs.

These authorizations of disclosure will expire one year (1) after my missionary service is terminated. I understand that once my protected health information has been disclosed according to this agreement and in accordance with the Notice of Privacy Practices for Protected Health Information, the recipient of my information may disclose my information to others and will no longer be protected.

The use and disclosure of protected health information authorized herein is for the purpose of the overall management and administration of my health care while a missionary for The Church of Jesus Christ of Latter-day Saints so that I can be an effective missionary on behalf of, and serve the needs of, the Church.

Insurance and Medical Expense Acknowledgement

The Church Handbook of Instructions indicates all missionaries are strongly encouraged to maintain their existing medical insurance during their missions. This conserves Church funds and helps missionaries avoid having to prove insurability after their missions. Maintaining coverage helps provide protection for past chronic or congenital problems and post-mission medical needs. This directive is consistent with the principles of self-reliance and self-sufficiency.

Couples and single sisters ages 40 and over are responsible for their own health care expenses and must have health insurance adequate for their mission assignments. If the insurance coverage of those living away from home is not adequate for their assignment, Deseret Mutual will send them information on additional insurance that they may purchase. Missionaries who need additional coverage but do not enroll in the DMBA plan must provide proof of adequate coverage before their service begins.

Acknowledgement:

I understand that if I become sick or injured during my mission, the Church may provide initial payments for my medical expenses except for pre-mission conditions. Payments in the United States will be made through Missionary Medical, a Division of Deseret Mutual, a not for profit Church affiliated entity.

These payments are made from the general funds of the Church and are gratuitous and voluntary in nature. Payments are not made from a Church insurance policy and are not intended to replace my personal health insurance.

I understand that claims will be filed with my insurance carrier. I agree to support all recovery efforts (including assisting in claims filing and reimbursement procedures) in the event the Church makes initial payment for medical expenses. I agree to support efforts by Missionary Medical to coordinate care directly with my parents (when authorized for disclosure), healthcare providers, and my insurance carrier.

I understand that if I am involved in an accident that the Church neither encourages nor discourages legal action from potentially liable or responsible third parties. I agree to reimburse the Church for medical expenses paid on my behalf in the event a settlement is reached or when a liable party makes payments.

I authorize the release of my medical information to the following individuals:
